

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

The resolution was adopted.

The following message from the House was also received and read:

House of Representatives,  
May 29, 1907.

To the President of the Senate:

Sir—I am instructed by the House to transmit to the Senate the following concurrent resolution:

House resolution No. 72.

Concurrent resolution accepting an oil portrait of General Isaac E. Crary, bequeathed to the state.

Whereas, Mrs. Bellona Pratt Crary Frink, late of Marshall, has bequeathed an oil portrait of her first husband, the late Gen. Isaac E. Crary, to the state of Michigan, to be hung up in such public room of the Capitol as the Governor may designate; and

Whereas, The said portrait, painted in 1854 by Walter Ingalls of New York, is pronounced to be an excellent likeness, and is now the only original picture of General Crary in existence; and

Whereas, As a member of the Constitutional Convention of 1835, General Crary drew, reported and secured the adoption of Article X of the first constitution of the state, which for the first time in constitutional history established a separate department of public instruction, with a constitutional officer at its head, in the state government; and which

for the first time in our national history, vested the title of the primary school section in each township in the state, for the benefit of primary schools throughout the state, and thereby established our magnificent primary school fund, and which, also, for the first time, vested the title of the seminary lands in the state, to create a perpetual fund for the maintenance of an institution of learning and thereby secured the endowment fund of Michigan University; and

Whereas, As a member of the 24th Congress from this state, General Crary drew the several ordinances for the admission of Michigan into the Union, and therein secured the said progressive measures contained in the state constitution by federal compact; and

Whereas, These measures, formulated and secured for Michigan by General Crary, laid the foundation for our grand public school system, and have since been adopted by nearly all the other states, and have been uniformly followed by the federal government in subsequent grants of land for educational purposes; and

Whereas, As Regent of the University, trustee of the Marshall Union School, and as a member of the State Board of Education, General Crary rendered invaluable services in establishing, organizing, developing and perfecting the different grades of schools embraced in the public school system of the state; and

Whereas, As a citizen of Michigan from 1831 to 1854, as a member of the Constitutional Convention of 1835 and of 1850, as the first, and for three terms the only Congressman from this state, as a member of the state House of Representatives in 1842 and as a member, and Speaker in 1846, General Crary was one of the ablest, and one of the most influential builders of the state, now therefore;

Resolved by the House (the Senate concurring), That we recognize the great historic value of this portrait of General Isaac E. Crary, and accept it, as worthy of a prominent place among the portraits of Michigan's most eminent statesmen, and direct, that engrossed copies of this memorial be forwarded to A. C. Frink of Marshall, and to Montgomery Frink of Battle Creek, the sons and personal representatives of the said donor;

Which has been adopted by the House, and in which the concurrence of the Senate is respectfully asked.

Very respectfully,

CHARLES S. PIERCE,  
Clerk of the House of Representatives.

#### REPORTS OF SELECT COMMITTEES.

The Select Committee appointed by the President of the Senate, under authority of Senate resolution No. 73, submit the following report:

The committee appointed to investigate complaints of the veterans of the Michigan Soldiers' Home, that their pension money was being withheld, beg leave to report as follows:

We find in all cases that pensioners receiving above \$12 per month have the excess appropriated by the board and that no report of amounts

so taken have ever been presented to any state official, and recommend that the board of managers be instructed and directed to adopt more nearly the rules of the National Soldiers' Home and that no money be withheld from members of the Home except for special hospital service or for discipline (in which case it shall be withheld only), the board acquiring no title to any amount so held, but the same shall be restored to such pensioner upon his leaving the Home or sent to his dependents, and that a copy of the treasurer's monthly report, submitted to the board of managers, be presented monthly to the Auditor General, containing an accounting of all such pension matters, together with the regular report of all moneys received and expended. Your committee also found that many members of the Home entitled to receive additional pension money under the new law, have determined not to apply for any advance as it would be taken by the board of managers and they would receive no benefit from the same, and that such amount would not exceed \$1,500 annually.

Your committee further recommend that no member of the Home confined to his bed, shall be subject to detail or be compelled to pay for such service, but that 50 cents per month may be taken from each pensioner for the post fund which may be expended for the benefit of the members of said Home, and that every effort be used to secure to the members of said institution the ease and comfort intended when the Home was built by the people of the state of Michigan.

No criticism of the present board of managers is intended, but your committee consider that a new arrangement is necessary under present conditions.

A complete copy of the evidence taken is presented herewith.

Respectfully submitted,

HUNTLEY RUSSELL,

F. B. KLINE,

T. A. ELY,

A. C. CARTON,

KARL D. KEYES,

Select Committee.

The report was accepted and adopted and the committee discharged.

Mr. Russell moved that the transcript of the proceedings taken during the investigation be filed with the Secretary of the Senate.

The motion prevailed.

The President declared that the motion made by Mr. Keyes had not prevailed for the reason that the bill properly belonged to the Committee on Elections and that to refer the bill to the Committee on Judiciary would be a suspension of Rule 17 of the Senate rules which would require a vote of two-thirds of the Senators present and voting.

Mr. Keyes appealed from the decision of the chair.

The President refused to entertain the appeal, stating that Rule 17 of the Senate rules required that all bills and joint resolutions shall on introduction be referred to the proper committee and that the Committee on Elections was the proper committee for the bill.

Mr. Cady arose to a point of order and stated that appeals from the decision of the chair were always in order.

The President declared the point of order not well taken, stating that there were positive fixed rules of the Senate which could not be abrogated or changed by a mere appeal which could be sustained by a majority vote of the Senate.

The bill was referred to the Committee on Elections.

Mr. Moriarty moved that the Committee on Elections be discharged from the further consideration of the above entitled bill and that the bill be referred to the Committee of the Whole and placed on the General Order.

Mr. Fyfe asked for a division of the question, stating that the motion made by Mr. Moriarty involved two separate and distinct questions.

Pending a discussion upon the merits of the bill by Mr. Tuttle, on the motion made by Mr. Moriarty,

Mr. Fyfe arose to a point of order and stated that a discussion of the general merits of the bill was not in order on a motion to discharge the Committee on Elections from the further consideration of the bill.

The President declared the point of order well taken.

Mr. Tuttle appealed from the decision of the chair.

Mr. Allen moved that the appeal be laid on the table,

On which motion Mr. MacKay demanded the yeas and nays.

The motion made by Mr. Allen then did not prevail, a majority of the Senators present not voting therefor, by yeas and nays, as follows:

### MESSAGES FROM THE GOVERNOR.

The following message from the Governor was received and read:

Executive Office,  
Lansing, June 18, 1907.

To the President of the Senate:

Sir—I return herewith to the Senate, the legislative body in which it originated,

Senate joint resolution No. 272 (file No. 150), entitled

Joint resolution to provide for the relief of Thomas Allen.

This claim against the state is not a new one. An examination of legislative journals shows that it has been presented to former legislatures, and in 1899 a resolution exactly similar in terms and conditions was passed by the legislature and approved by the Executive on June 21st of that year. The resolution was presented to the Board of State Auditors and the Board refused to consider the claim. A writ of mandamus was presented to the Supreme Court and the case decided at the December term, 1899. The court's opinion denying the writ can be found in 122 Michigan, 326. It is not necessary to give further reasons for withholding my approval from this measure, as its merits and constitutionality have been passed upon and decided adversely by our court of last resort.

Very respectfully,  
FRED M. WARNER,  
Governor.

Mr. MacKay moved that the joint resolution be laid on the table.  
The motion prevailed.

And that the bill be substituted for the concurrent resolution offered by Mr. Fyfe.

Concurrent resolution relative to the direct nomination of party candidates for the office of United States Senator.

Resolved, That the provisions of Act No. 181 of the Public Acts of 1905, relative to petitions, the printing of ballots, holding of primary elections, canvass of votes and certifying results for the primary election for Governor and Lieutenant Governor, are hereby made applicable to the nomination of candidates for United States Senator: Provided, That to obtain the printing of the name of any candidate of any political party for United States Senator upon the ballot for any primary election held in this state pursuant to the provisions of this act, there shall be filed with the Secretary of State, before 4 o'clock of the afternoon of the 15th day before the day of the primary election, nomination papers for such office, signed by a number of qualified electors residing in the state and who are enrolled in the party enrollment of said party, equal to at least two per cent of the number of votes that such party cast for Secretary of State at the last preceding November election: Provided further, That nomination for the office of United States Senator shall not be made unless such official is to be elected by the next succeeding legislature: And Provided further, That the Board of State Canvassers in the case of candidates for the office of United States Senator shall certify the result of the primary election to the next succeeding legislature on the first day of the session.

The Secretary announced that 16 of the Senators had voted "yea" and that 16 of the Senators had voted "nay."

Whereupon the President voted "nay" and declared that the substitute was not adopted.

Mr. Cady: Does the President maintain he has a right to vote on the passage of the resolution?

The President: The Chair so understands the constitution. It is the same thing as a motion, not being a joint resolution, and not having to be signed by the Governor.

The question then being on the resolution offered by Mr. Fyfe,

The roll of the Senate was called by the Secretary, whereupon the Senators voted as follows:

The Secretary announced that 16 of the Senators had voted "yea" and that 16 of the Senators had voted "nay."

Whereupon the President voted "yea" and declared the resolution offered by Mr. Fyfe adopted.

Mr. Tuttle: I arise to a point of order. This is on the passage of a measure on which the Chair has no right to vote.

The President: The Chair holds that he has a right to vote in the event of a tie upon a concurrent resolution, for the reason that the provision of the constitution requiring a majority vote of the members-elect (Article IV, section 19), does not apply to concurrent resolutions. A concurrent resolution need not be signed by the Governor, and therefore has not the force or effect of a joint resolution.

Mr. Tuttle: I will take an appeal from the decision of the Chair, that the President has the right to vote on this resolution and that the resolution prevails.

Mr. Cady: I wish to call the President's attention to Rule 23, second subdivision: "No bill shall be amended or committed until it shall have been twice read; and all joint resolutions which direct the payment of money or the incurring of any expense, or which propose any amendment to the constitution, shall be treated as bills. Certainly this is going to incur an expense.

The President: The Chair will suggest that this is an excellent time for some one to test the ruling of the Chair.

Mr. Moriarty: Will the Chair please explain the difference between a joint resolution and a concurrent resolution?

The President: A joint resolution must be signed by the Governor, must be read twice by its title, referred to a committee and take the regular course of a bill.

Mr. MacKay: Does the Chair hold that a concurrent resolution must not be signed by the Governor?

The President: The Chair so holds.

Mr. MacKay: I desire to read section 14 of article 4 of the constitution of Michigan: (reading).

"Every bill and concurrent resolution, except of adjournment passed by the legislature, shall be presented to the Governor before it becomes a law. If he approve, he shall sign it, but if not, he shall return it with his objections to the house in which it originated, which shall enter the objections at large upon their journal and reconsider it. On such reconsideration, if two-thirds of the members elected agree to pass the bill, it shall be sent, with the objections, to the other house, by which it shall be reconsidered. If approved by two-thirds of the members elected to that house, it shall become a law." Does the Chair still hold that he can vote on a question of that kind?

Mr. Wetmore: I move that the appeal lie on the table.

Mr. Tuttle: I desire to have the ruling of the Chair very clear on the record.

The President: The Chair will take this opportunity to state his position on this entire matter. The Chair will state that there has been more or less discussion and dispute among the Senators, and also the Attorney General's office has been appealed to as to what the powers of the Lieutenant Governor are with reference to voting. The communication from the Attorney General, relative to this matter, as the Chair understands it, stated that in the opinion of the Attorney General the Lieutenant Governor could vote only to break tie votes in committee of the whole. The Chair, however, with all due respect for the learning and ability of the Attorney General, believes that the officer in question has not placed the proper construction upon the section of the constitution which gives the Lieutenant Governor the right to vote. If the Lieutenant Governor has the right to vote, as the Attorney General contends, only in committee of the whole when there is a tie, the power would be absolutely useless and would amount to nothing, for the reason that the Lieutenant Governor could break the tie and decide a matter upon which the Senate was equally divided in committee of the whole and then upon concurring in the adoption of the report of the committee of the whole after the committee arises, if he has no vote, the report of the committee of the whole would fail of adoption and his vote in committee of the whole would thus be nullified and would be of no force or effect. It is hardly probable that the framers of the constitution intended any such thing. Further, the constitution says that it is the duty of the Lieutenant Governor, in the case of a tie, to give the casting vote and it is the opinion of the Chair that there is no precedent in the record of any parliamentary body for holding that a casting vote can be given by any person except the presiding officer. The Lieutenant Governor does not preside in committee of the whole and therefore would be in no position to give the casting vote.

Mr. Cropsey: The supreme court construed the section you are speaking of last week, adversely to your ruling.

Mr. Wetmore: The President refers to section 19, which reads: "Every bill and joint resolution shall be read three times in each house before the final passage thereof."

The President: Will the Senator read that in full and incorporate it in the record?

Mr. Wetmore (reading section 19 of article 4 of the constitution):

"Every bill and joint resolution shall be read three times in each house before the final passage thereof. No bill or joint resolution shall become a law without the concurrence of a majority of all the members elected to each house. On the final passage of all bills, the vote shall be by yeas and nays and entered on the journal."

The President: If it were not for that section which has just been quoted, there would be no question in my mind as to the power of the Lieutenant Governor to vote on every question outside of the committee of the whole when there is a tie, including the final passage of a bill. It has been contended by some able lawyers that for three purposes the Lieutenant Governor is a member of the Senate, viz.: First, for the purpose of debating on questions in committee of the whole. Second, for the purpose of acting as the presiding officer of the Senate; and Third, for the purpose of voting whenever there is a tie; that when these conditions arise there are thirty-three members of the Senate and that the Lieutenant Governor's vote with sixteen Senators, would be sufficient to pass any measure when the Senate stands equally divided upon the proposition. Personally I do not know what the supreme court will say as to a proposition of this sort. However, I have already voted upon this question and if I have exceeded my constitutional authority, the supreme court will take care of it and I therefore will let the record stand.

Mr. Tuttle: Does the Chair hold that this is a concurrent resolution or a joint resolution?

The President: The Chair does not wish to go into the technicalities of the question at all.

Mr. MacKay: Do I understand the Chair to say that a concurrent resolution does not have to be signed by the Governor?

The President: That perhaps was an error on the part of the Chair.

Mr. MacKay: Does the Chair still hold that he can vote on any proposition which has to be signed by the Governor?

The President: The Chair holds as stated to the Senate.

Mr. Tuttle: I insist on my appeal from the decision of the Chair.

Mr. Wetmore: I move that the appeal lie on the table.

The Chair: The question is on the motion of the Senator from the 27th, that the appeal of Senator Tuttle lie on the table. Upon this question the yeas and nays are demanded.

The roll of the Senate was called by the Secretary, whereupon the Senators voted as follows:

The Secretary announced that 16 of the Senators had voted "yea" and that 16 of the Senators had voted "nay."

Whereupon the President voted "yea."

Mr. MacKay: The Chair has stated the position of the Chair for the record, and I think, in justice to the other side, that our position should be entered upon the record as well. I would like to have section 14 of article 4 of the constitution and our objections read into the record in connection, and I would like to have read into the record the opinion of the Attorney General of this state.

The President: If there are no objections on the part of the Senate, the Senator may proceed to enter in full upon the journal of the Senate his objections and the opinion of the Attorney General. The Chair hears no objections.

Mr. MacKay sent to the Secretary's desk and had read the following communication:

State of Michigan.  
Attorney General's Office,  
Lansing, June 13, 1907.

Committee on Judiciary, Senate Chamber, Capitol:

Gentlemen: I am in receipt of your communication of the thirteenth instant, requesting an opinion upon the question of whether or not, after a bill has passed the Senate and is transmitted to the House, where it is amended and passed, the Lieutenant Governor is entitled to cast the deciding vote in the Senate in the event of a tie upon the question of concurring in the amendments made to the bill by the House.

For answer thereto I would say that the constitution provides, in section 14, article 5, that the Lieutenant Governor shall, by virtue of his office, be President of the Senate. He is not a member of the Senate, and is not therefore entitled to vote as a member of that body unless authority to do so is conferred upon him by the constitution.

Cushing, Law and Practice of Legislative Assemblies, Sec. 308.

The only authority to vote in the Senate, conferred upon the Lieutenant Governor is found in the section of the constitution above referred to, where it is provided that "In committee of the whole he may debate all questions; and when there is an equal division, he shall give the casting vote."

Under this provision, the authority of the Lieutenant Governor to cast the deciding vote would seem to be limited to those cases where a tie exists in committee of the whole. But whatever may be the authority of the Lieutenant Governor to vote under this provision of the constitution, it seems clear that he has not the right to cast the deciding vote in the specific case you have in mind, by reason of another provision of the constitution. Section 19 of Article 4 provides that "no bill or joint resolution shall become a law without the concurrence of a majority of all the members elected to each house." To hold that the Lieutenant Governor may cast the deciding vote upon the question of concurring in the amendments made by the House, is necessarily to hold that the bill may become a law without the concurrence of a majority of all the members elected to the Senate.

It is therefore my opinion that the Lieutenant Governor is not entitled

to cast the deciding vote in the event of a tie upon the question of concurring in amendments to a Senate bill made by the House.

Respectfully yours,

JNO. E. BIRD,  
Attorney General.

Mr. MacKay: I would also like to read into the record this provision of section 14 of article 5 of the constitution: "The Lieutenant Governor shall, by virtue of his office, be President of the Senate. In committee of the whole he may debate all questions; and when there is an equal division, he shall give the casting vote." That is the only authority which the presiding officer of this body has to vote on any proposition.

Mr. Tuttle: The motion was to lay the appeal upon the table; I don't think the Chair declared that motion; did the Chair vote on that question?

The President: The Chair voted "aye."

Mr. Tuttle: I arise to a point of order; that the Chair has no authority, no right to vote upon the question of sustaining his own appeal, which it amounts to when he votes to lay the appeal upon the table, sustaining his own ruling.

The President: The point of order is not well taken.

Mr. Tuttle: From that decision I desire to appeal.

The President: You are only going around in a circle, Senator.

Mr. Tuttle: I desire to show you, Mr. President, how ridiculous your rulings are, and I want it to appear in the record that you hold that you cannot vote to sustain your own appeal, but you hold that upon a motion to lay it upon the table, you have the right to vote. Now, we have a right to appeal from every decision of the Chair, and I can keep this session, under your rulings, and under that right, in session for two years from now, by appealing from that and going around in this circle, and it results from the ruling of the Chair and not from the rules of parliamentary practice.

Mr. Tuttle: What does the Chair hold in regard to my appeal from the decision of the chair?

The President: Not well taken.

Mr. Tuttle: I appeal from that decision; that you have a right to vote upon laying the appeal upon the table.

Mr. MacKay: I would like to complete my record.

The President: The Senator from the 2nd has the floor.

Mr. MacKay: I also desire section 14 of article 4 of the constitution of Michigan to appear upon the record. (Reading.) Section 14, article 4: "Every bill and concurrent resolution, except of adjournment, passed by the legislature, shall be presented to the Governor before it becomes a law. If he approve, he shall sign it; but if not, he shall return it with his objections to the house in which it originated, which shall enter the objections at large upon their journal, and reconsider it. On such reconsideration, if two-thirds of the members elected agree to pass the bill, it shall be sent with the objections, to the other house, by which it shall be reconsidered." It takes two-thirds of the members elected to this body to pass a bill or concurrent resolution over the veto of the Governor of this state, and yet the president of this Senate, who is not elected a member here, has the presumption to say that he is entitled

to vote on the passage of such a proposition. I simply want the record to show that, so the people of this state can see to what length certain people have gone.

Mr. Cropsey: Do I understand you base your right to vote upon the fact that this is a joint resolution or a concurrent resolution?

The President: The Chair does not care to state further.

Mr. Cropsey: In other words, you desire to say you will vote but you do not want to give any reason.

The President: Does the Senator understand that the Chair has given no reasons?

Mr. Cropsey: I do; no valid reasons.

The President: The Chair has stated that a number of most excellent attorneys believe that for three purposes, the Lieutenant Governor is a member of the Senate, therefore could vote upon the passage of a bill if he saw fit to do so. I simply state that having voted upon this proposition, the question being open to discussion and debate, I will allow the vote to stand, in order that the matter may be passed upon by the supreme court. The Chair states that the same reason that would lead him to vote for a concurrent resolution would also lead him to vote for a joint resolution or bill, were it not for section 19, article 4, of the constitution.

Mr. Cropsey: The supreme court decided that a joint or concurrent resolution has the same effect as a bill.

The President: The Chair so understands it.

Mr. Cady: I would like to ask the President if he now holds that a concurrent resolution does not have to be signed by the Governor?

The President: The Chair holds nothing of the sort.

Mr. Ming: I made a motion awhile ago. I move the concurrent resolution be spread upon the journal at length.

The President: That will so be done, as a part of the record.

Mr. Tuttle: I ask for a vote upon my appeal from the decision of the Chair.

The President: The Senator from the 14th appeals from the decision of the Chair as to his right to vote upon laying the appeal upon the table, and upon that question the yeas and nays are demanded.

Mr. Allen: I move to lay the appeal on the table and demand the yeas and nays.

The President: The Senator from the 13th moves that the appeal lie on the table and on that motion he demands the yeas and nays.

The roll of the Senate was called by the Secretary, whereupon the Senators voted as follows:

#### MESSAGES FROM THE GOVERNOR.

The following message from the Governor was received and read:

Executive Office,  
Lansing, June 19, 1907.

To the President of the Senate:

Sir—

In availing myself of the privilege of communicating with the Legislature by special message which is conferred by the constitution upon the Governor, I desire to express my appreciation of much of the work accomplished during the present legislative session. While, as at all previous sessions, some commendable bills have failed of passage while others less desirable have met with the approval of a majority of both of the Houses, there have been enacted a number of especially worthy laws which call for more than passing notice.

Prominent among these measures which will benefit the people of the state at large is the so-called two cent railroad fare bill. In my judgment no injustice has been done the railroads by the enactment of this law, while all the people of the state will be materially benefitted thereby.

In repealing the limited liability and change of venue laws, you have fulfilled promises made throughout the state during the last campaign and met a demand of your constituents generally.

In making provision for the establishment of a binder twine plant at the State Prison at Jackson you have, in my judgment, not only furnished proper employment for a goodly number of convicts, but have provided them with labor which will produce a profit for the state in addition to supplying many Michigan farmers with twine at a reduced cost.

Not the least important among the many praiseworthy bills that have been passed is the one creating a commission to supervise and regulate

certain phases of railroad operation in this state. Although this bill is not all that could be desired and falls short of what was advocated by many of you, it is nevertheless a step in the right direction. I am confident that it will meet with such approval from the people of the state that succeeding legislatures will not hesitate to enlarge its scope and eliminate its imperfections.

There are many other excellent measures in the list of bills passed which it is impossible to mention more particularly at this time.

Those of you who conscientiously supported and voted for these bills are entitled to the thanks and commendation of your constituents and I join with them in expressing hearty appreciation of your services in their behalf.

It is a well established principle that legislators should be responsive to the wishes of their constituents. When they fail to be so responsive they are unfaithful to the trust reposed in them.

There can be no question whatever as to what the people desire in the line of a primary election law. The primary election bill which passed the House nearly unanimously and received sixteen votes in the Senate provides, among other things, for the nomination of candidates for United States Senators by direct vote of the people. This proposed change in the existing law is certainly in full and complete accord with public sentiment and has been made in a number of states in response to a popular demand.

The bill also provides for making all nominations on the same day, thus effecting a substantial saving of the people's money in nearly two thousand election precincts throughout the state, the aggregate proposed saving exceeding \$50,000.

The bill furthermore eliminates the so-called 40 per cent clause, thus positively assuring the nomination of candidates for Governor and Lieutenant Governor by the people, thereby placing these nominations on precisely the same plane as all other nominations made at the primaries.

If any portion of the people of our state, save a few who are allied with the interests of the political corporations, have protested against any of these proposed changes in the law, their voices have not been heard in the legislative halls. On the contrary the demand of the people for the changes mentioned has been widespread and insistent.

Not only is the sentiment in favor of this bill universal throughout the state, but no substantial reason for opposing it has yet been advanced, and no reason of any nature has been voiced, save by those interests which would be affected by the proposed law which is clearly in the interests of the great masses of your constituents.

The opposition to this measure has been conducted, for the most part, in silence broken only by the accredited representatives of special interests whose plans and purposes they would defeat.

Those legislators who have thus opposed the passage of the primary bill cannot, in my judgment, and do not, as a matter of fact, even feebly claim that their action either has been or will be approved by anything approaching a respectable minority of the citizens of Michigan.

It is but fair to the legislature and to the people of the state for me to say at this time that it is my present belief that a special session of the legislature should be called for a date yet to be determined upon

and that at such special session I shall recommend the passage not only of this bill but also of a bill requiring that all lobbyists be registered and regulated so that the people of the state may know just who are opposing measures drafted in their interests.

Very few of the appropriation bills have reached the Executive Office. Most of them will not be received until after the adjournment of the legislature. The law now provides that the Chief Executive must approve or veto an appropriation bill in its entirety, even if it contains appropriations for many different objects, thus affording no opportunity to disapprove of those items which the Executive believes should not become operative without doing away with the entire bill. In many states this serious defect in the law has been remedied and I believe it should be in this state.

From the best information I have been able to obtain I find that the total amount of all the appropriations made this year will be about one million, eight hundred thousand dollars in excess of the total amount appropriated by the Legislature of 1905. While the amount appears large, and it might have been possible in a few cases to have gotten along with smaller appropriations for certain purposes, I find upon considering the increases granted by you that they have been made for objects which I believe will be approved by all of our people who have the best interests at heart.

In analyzing the increases, I find that our educational institutions—our great University, four Normal Schools, the Agricultural College and the College of Mines—take nearly six hundred and fifty-two thousand dollars, or 35 per cent.

It is highly gratifying to know that public sentiment in Michigan will fully sustain the action of the legislature in making adequate appropriations for the cause of education. I believe that the character of the people and the degree of civilization to which they have attained can best be measured by their appreciation and support of their institutions of learning. Our people are well aware that every dollar economically spent in the education of our children is just so much invested in the citizenship of our state, which, in point of worth, far outweighs any material consideration.

Our charitable institutions in which every citizen of our state who is at all acquainted with them has a just pride, viz.: our Industrial Schools for Boys and Girls, the State Public School for Dependent Children, our Asylums and our new Tuberculosis Sanatorium, are granted an aggregate increase of seven hundred thousand dollars, or 39 per cent of the total increase.

To my mind nothing goes farther to show that the world is actually growing better than the changed attitude of our people during the last half century towards caring for the weak and the unfortunate through the agency of our great charitable institutions supported by the state. Michigan institutions in which this great work is carried forward are not surpassed by those of any state in the Union and appeal with special force to the great rank and file of our people.

You will observe that three-quarters of the total increase in appropriations over those of two years ago is for our educational and charitable institutions. Adding to this the increase for the maintenance of our state militia, the building of good roads and the appropriation for

the establishment of the Binder Twine Plant at the State Prison, we have 95 per cent of the total increase. The balance of the budget is made up of appropriations which it would have been very difficult to have made smaller.

When it is considered that these increases, which will enable our state institutions to do much better work, can all be paid during the next two years by an additional tax of less than six cents per year on each one hundred dollars of valuation, as this tax on the total equalized valuation of the state will produce over two million dollars, I do not believe that the taxpayers will object to making the outlay necessary to keep these institutions in which they take such pride, in condition to do the greatest good to the greatest number.

In conclusion, permit me to wish you all a safe journey to your homes and to indulge the hope that happiness and prosperity may be vouchsafed to you and yours throughout the days to come.

Very respectfully,

FRED M. WARNER,  
Governor.

The following message from the Governor was also received and read:

Mr. Wetmore moved to take from the table

House bill No. 655 (file No. 206), entitled

A bill to amend section 24 of Act No. 206 of the Public Acts of 1893, being section 3847 of the Compiled Laws of 1897 as amended by Act No. 262 of the Public Acts of 1899, and sections 29 and 30 of said Act No. 206 of the Public Acts of 1893, being sections 3852 and 3853 of the Compiled Laws of 1897.

The motion prevailed.

The question being on the passage of the bill,

Mr. Wetmore moved to amend the bill

By striking out the enacting section and inserting in lieu thereof the following to stand as such section:

Section 1. Mr. Kane	Mr. MacKay	Mr. Whitney	3
----------	------------	-------------	---

The President laid before the Senate the following communication:

Executive Office.  
Lansing, Feb. 6, 1907.

To the President of the Senate:

Sir—I desire at this time to communicate with the Senate regarding the re-appointment of Arthur C. Bird as Dairy and Food Commissioner, whose confirmation has been delayed on account of the recess taken by the Legislature.

It has come to me through the state press and other sources that there was objection raised to the confirmation of this appointment by some on the ground that Mr. Bird was responsible for the statement given out by me during the late senatorial contest. I alone was responsible for that statement and believed it my duty to take the position I did and I am ready and willing to defend my course at any time the Legislature desires to take action.

As to my appointments in general it is my desire that the men I select for these positions shall perform their respective duties faithfully, energetically and effectively. I trust that my selections will all be of such a character that they will receive your approval. I know you realize, as I do, that all appointments desired cannot be made, not because they

would not be commendable, but on account of there being so many good men for the positions to be filled. I know we all wish an administration of public affairs which will promote the best interests of all the people and because of this make stronger the political party to which we all belong.

It is because of my interest in these matters that I ask you one and all to feel free at all times to come to me with your counsel and advice. Working together harmoniously we shall succeed in retaining the support and good will of the great majority of the people of our state.

Very respectfully,

FRED M. WARNER,  
Governor.

The President stated that the communication would be spread at large upon the Executive Journal.
